ABOUT US

United Apparels was established in the year 1998. Since 1998 with good reputation our company is staffed by qualified and experienced people who are always on the look out to ensure best quality at the most competitive price to our principals. As buyer option we can work with or without GSP.

The Company is based on a simple but unwavering philosophy of supplying high quality garments and apparels with entire satisfaction of our valued customers and is accountable to each of the constituents with whom it interacts like customer, business associates, employers etc.

We are recognized by our customers and suppliers as a trustworthy organization. We are striving to deliver high quality products and efficient services. With the combined efforts of our well-practiced management, experienced technicians, skilled workers and highly professional marketing team, we have seen our company growing rapidly over the past years.

We warmly invite you to have business co-operation with us.

OUR VISION

To become the benchmark manufacturing company for the textiles and garments industry providing world-class products through the integrity, teamwork and creativity of our people driven by our constant commitment to outstanding overall customer satisfaction.

OUR MISSION

To deliver high-quality products and exceptional services to our customers by harmoniously blending safety, quality and efficiency while diligently maintaining our integrity, honesty and dedication towards environmental and social responsibilities.

United Apparels is working with Hawlader Embroidery, New Design Gallery, and Abloom Design for its immediate printing supports. These are modern printing factory situated in the BSCIC area having facility of high quality Stitching, Sequence , Terry Design, and all other types of Embroidery.

**We have following facilities in our factory, which
Can be referred to as examples of best practices:**

1) Punch Card System: We have set up Punch Card System for workers attendances, time recording and wages. Though preliminary we have initiated printed time card to instead of punch card to maintain time recording and wages.

2) House Keeping Team: The factory has a House Keeping Team for maintaining neat and clean environment and atmosphere in accordance with the Health and Safety Act of our country.

3) Medical Facilities: The workers enjoy free health care Benefits and Medicare.

We have a qualified doctor who visits our factory every working day of week.

4) Evacuation Plan: There are some diagrams kept in the floors of the factory showing direction for all employees to run out in case of any emergency situations.

5) Emergency Exits: We have one extra emergency exit in all the floors for use by the workers in case of any emergency in the factory.

6) Pure Drinking Water: Drinking water is one of the few needs of mankind and United Apparels. trying their best to keep everybody have free access to particular essential commodity. Therefore purified drinking water is provided at each floor working area and employees are free to access them.

Locations are clearly marked on floor plans for everybody's awareness. According to, we have provided 06 (Six) Pure drinking water pots so that workers can easily drink water when they fell thirsty.

7) Fire Drills: We have Fire Fighting Equipment in the factory as per Factory Act and in order to use them effectively as and when required we have a Fire Fighting Team who are especially trained to deal with any fire emergency. We have arrangement for Fire Drills on regular basis i.e.; one every month so that the team can perform their duty effectively when required.

8) First Aid Boxes: Fully equipped first aid boxes are located in all the working areas in easy access to anybody and are marked on the boxes as well as on the floor plan located at the common area. We keep certain of medicine of different types in a First Aid Box in each floor for employees to use as First Aid.

9) Smoke Detector and Emergency Alarm: Adequate numbers of Auto detectors are located at every department for detecting smoke and alarming the danger. Each of them has its own maintenance records to make sure they are proper working order. Every floor is equipped with emergency alarms switch and floor indicating lights are located at common places and marked for easy identification.

10) Back- Up Power: In addition to general power supply alternative backup generator is available to use in case of power failure as well as for emergencies.

This located at service room under all safety measures and regular checks are being made to make sure it's in order for emergency use.

11) Suggestions or Complain Boxes: Employees may have their own suggestion or complain against any activities or individual in the company. The management of United Fashion Wears Ltd feels this information can play a major role in the success of the company and therefore the company has provided suggestions and complains boxes with lock and key under maximum guaranteed confidence in all the factory floors.

COMPLIANCE ISSUES

Being a socially as well as environmentally responsible organization, we have BSCI and Oeko-Tex certified factory also we are very conscious regarding the wellbeing of our workers and the environment in which they reside. To ensure this we maintain the following policies and measures. These are broadly categorized under the following four broad sections:

1. All rules and regulation regarding workers' salary, benefit and appointments are maintained according to **Bangladesh Labor Law.**

2. Fully computerized **attendance card** is maintained.
3. **Protective equipment's** like masks, ear plugs, goggles, glass, boots etc. are used on all production floor and store area as required. Signs and warnings are also posted on required areas to remind workers to wear protective equipment's
4. Entire factory facility is declared and maintained as **Non-smoking zone**.
5. Standard distance and **aisle-way** is maintained between each machine so that no obstruction is faced on the working floor.
6. **Needle and sharp objects policy** is maintained
7. **Metal detection policy** is maintained
8. Workers are given regular trainings regarding **health and safety**, machines handling and sharp objects handling.
9. Separate male/ female **toilet** and sufficient no of cubicle in each is maintained.
10. The whole factory premise is within **buss bar Trucking system**.
11. All electrical wirings have been constructed as per approved designs by appropriate authorities.
12. All **electrical wires** are covered and properly insulated throughout the factory floor.
13. All electrical appliances (iron, control panel etc.) have insulated rubber mats in front, standing on which operators can use the appliances.
